Professional Experience

UI/UX Designer for DHS MARCH 2023 - MAY 2025

Acuity Inc, Arlington, VA (Remote)

- Designed and presented user interfaces and prototypes for high-impact government enterprise applications, simplifying complex task flows and significantly reducing time on task for critical workflows by up to 400%
- Collaborated with cross-functional team, ensuring designs met business requirements and user needs
- Conducted user testing to determine preferences and pain points, listened to users, and iterated on designs to improve user experience and client satisfaction
- Mentored and encouraged junior designers and business analysts in user experience and ongoing learning
- Created components for the program-wide design system to increase standardization and improve efficiency for designers and developers on team

UI/UX Designer / Web Content Manager for US Coast Guard (USCG) JULY 2008 – FEBRUARY 2023
Acuity | ManTech, Portsmouth, VA (Remote since 2017)

- Improved efficiency by designing user-friendly web interfaces and digital business applications on Intranet for 70,000+ users, decreasing time on task for common processes used by the command and fleet
- Increased portal engagement and positive user feedback by designing user-friendly knowledge system that increased data integrity and became a role model for other commands
- Streamlined workflows and minimized cost by successfully building automation of common tasks
- Empathized with user needs while providing technical support, gathering user feedback, and removing user pain points
- Mentored junior portal administrators and users, sharing knowledge to build culture of collaboration and learning
- Championed new technology and developed training for Coast Guard users on SharePoint/M365

User Interface (UI) Designer and Artist NOVEMBER 2005 – JULY 2008
Self-Employed, Carrollton, VA

- Improved online presence and branding for small businesses, startups, and non-profit organizations
- Work included UI design, visual design, front end web development, graphic design, branding, photography, illustration, painting, art exhibitions, mentoring, and teaching Photoshop lessons
- Received art, photography, and design awards; produced published artwork and public art

Visual Designer / Web Author AUGUST 2000 - NOVEMBER 2005
CACI | AMS, Norfolk, VA

- Created user-friendly interactive distance learning for DoD and other government agencies, such as National Institutes of Health (NIH), consistently receiving positive feedback from clients
- Roles included UI design, graphic design, storyboarding, front end development, animation/multimedia design, user testing, interaction design, content writing, and editing
- Contributed to award-winning e-learning projects, including Communicator Award and Army coin of recognition
